

SchoolTrac

School Security Surveillance System

SchoolTrac uses the latest wireless sensor technologies to accurately detect children's movement at school. Notifications and alerts are sent to teachers and parents in real-time to assure them of the safety and security of the children.

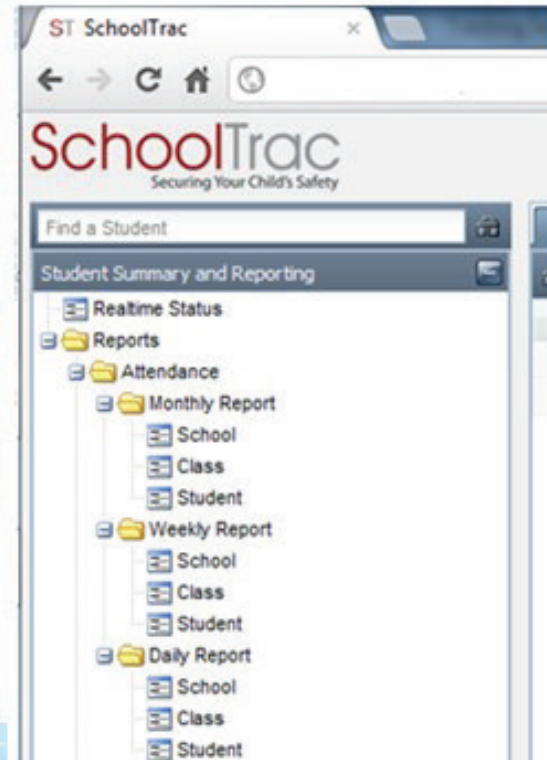

- Children are given *SchoolTrac* badges with unique IDs. The badge is also a student card/photo ID cardholder and can be worn around the neck or comes with NFC wallet.
- *SchoolTrac* readers located at school entrances automatically record the arrival and departure of children by detecting the wireless signal from the tag.
- Parents are instantly notified of the time their children have safely entered or left the school compound via SMS or Mobile App.
- If a child is detected leaving the school area during school hours, teachers are alerted instantly so that actions can be taken promptly to mitigate any safety risk to the child. Parents will also be notified of the incident.
- School administrator can automatically generate attendance report for every school children with daily arrival and departure time.

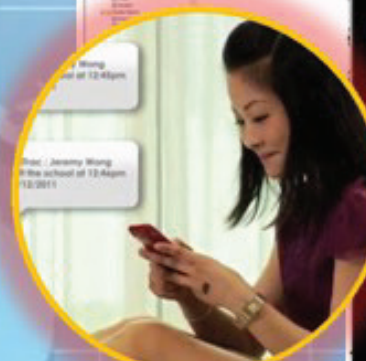

SchoolTrac Key Features:

- SchoolTrac Cloud
- Students Entry and Exit Track and Trace
- Complete Reporting for Attendance Management
- Emergency Student Exit Alert
- Integrated SMS & Email Broadcast to Parents & Guardians

Proven Wireless Sensor Network Technology:

Why SchoolTrac?

- System will be deployed at **ZERO COST** to school
- Next Generation Wireless Sensor Tracking for safety & security
- Real-time teacher & parent alerts via SMS or email
- Complete attendance reporting lets school comply to Ministry requirement easily
